EFC SERIES: PORTABLE GLYCOL FILTER CART

SALES · RENTALS

The SC Industrial EFC Series Glycol Filter Cart is used to kidney loop tanks and as a transfer filter/pump of various glycols and heat transfer fluids . This quality heavy duty portable filter is manufactured using high quality components for many years of reliable use.

The heavy duty filter vessel is top loading with swing bolt lugs for ease of servicing. The filter vessel is universal so it can be used to remove particulate, moisture, oil/hydrocarbons and/or dissolved contamination.
